Letter of Recommendation for Mesut Onur Yıldırıncı

To Whom It May Concern:

I have had the distinct pleasure of having Mesut Onur Yıldırıncı, born on June 24, 1994 in Tekirdag, Turkey, as a student and Team Leader during the Winter Semester 2016/2017 and Summer Semester 2017 in my Cross-Cultural Management courses offered by the Department of Business Management and Economics, Chair of Business Administration & Industrial Management at the Julius-Maximilians-Universität Würzburg.

Onur has been more than the ideal student and team leader. In addition to class participation, he was a well-prepared, active student during an intercultural University project. He continually demonstrated outstanding leadership skills and maintained a clear sense of purpose with his team.

The academics at the Julius-Maximilians-Universität Würzburg are most challenging, and Onur fulfilled all the requirements, which is quite unique due to the courses individualized, project-based learning approach. With Onur's knowledge and involvement in Business and Economics, he demonstrated a healthy sense of confidence along with a positive attitude. Therefore, I could always depend on him to set the best example in class. These qualities, together with Onur's willingness to support others, clearly reflect his successful academic background.

Since his classmates, my fellow teachers, and I will always hold him in the highest esteem, I sincerely recommend Mesut Onur Yıldırıncı as an ideal candidate for any future programs he deems important in furthering his career.

Respectfully submitted,

Philo K. Holland III, B.EC. MBA
